**The MeterMizer**

THE SOLUTION TO ELIMINATING FLOOD COOLANT

The MeterMizer is a positive displacement lubricating spray system. Used for 'ultra low volume' & 'near dry machining' (NDM) applications.

- Can be used in most machining applications.
- Can be used externally onto cutting tools or internally with the 'The Tool' tool.
- Improved cutting tool life.
- Less mess to factory environment.
- Reduces lubricant costs.
- Reduces clean up costs of finished parts.
- Used with Larson's Metabole for 'Life Time Warranty'.
