It's Gurney Demo Season

Along with the opportunity to see the many products we have to offer on our demo Gurney we can also bring to your facility some of our SMC mini panels showing many of the products they have to offer. SMC have over 500 mini panels to show a range of all of the products they have to offer. Call 905-738-6688 or 1-866-665-7877 to arrange a quick 15 minute demo or a lunch and learn by SMC for your engineering and plant maintenance personnel. Attention 80/20 Fanatics: IPEC's line of 80/20 Products Hits the Big Screen... Again!

Julia Roberts, Clive Owen, and 80/20 star in the romantic crime comedy, Duplicity.

Keep an eye out for 80/20 profiles, which are prominently featured in the film!

Note the aluminum profile in the background of the photo to the left.

Protect Pneumatic Equipment from Moisture!

Compressed air contains moisture (water vapor, droplets), oil, debris and other foreign matter. Filters and mist separators can be used to remove droplets, oil, debris, and so on, but a dryer is necessary to remove water vapor. We have the solution - Refrigerated Air Dryers sales@ipecautomation.com.

IDF refrigerated air dryer series, in compliance with the Montreal Protocol Regulations, uses refrigerants R134a and R407C to prevent any damage to the earth's ozone layer. (Medium size series use R22). Series IDF can accommodate an inlet temperature of 40° C. Corrosion resistance is improved by using a stainless steel, plate type heat exchanger.
